LA FOLLETTE IS CERTAIN TO WIN

Chairman Bryant Figures That the Governor Will Carry State by 40,000.

VICTORY ASSURED

Republicans Are Confident That the Election Results Will Be Favorable to Them.

(Special To The Gazette.) Milwaukee, Nov. 4.—Chairman Bryant of the republican state central committee places the majority at 40,000 and says that even that is a moderate figure from the sources of information he has had to draw from. Chairman Warden of the democratic committee claims the state for the democrats by ten to twenty thousand making a difference of sixty thousand in the estimate of the two men.

No Fear Is Shown Throughout all the counties of the state no fear has been shown as to the result of the election from the republican standpoint. All reports at the headquarters show that the vote while not as heavy as two years ago will be large and that La Follette seems to have a clear field.

Babcock's Opinion Congressman Babcock writes from New York that he looks for a clean republican sweep of the state and that ten of the congressmen will be elected and possible Froelich in the sixth will also be elected. The sixth being a democratic district is naturally the most feared.

Vote Is Quiet Up to noon today the vote showed to be very light throughout the state and in all districts everything is very quiet showing that the winning element is at work. The democrats claim many of the disaffected republicans and say they will reduce the republican majorities in former republican strongholds.

Milwaukee's Vote Milwaukee, 2 p. m.—The vote up to one o'clock this noon was very heavy. 2,000 votes had been polled as compared with 17,000 four years ago and 30,000 of two years ago. No predictions are being made and the issue is still in doubt.

At Marinette, the Stephenson's home, the vote is very light, but there seems no doubt that the city will go republican.

At Madison Madison, Nov. 4.—There seems to be much cutting of ballots in this city and the result of the election is still in doubt. Many women are voting.

COLONIES REFUSE TO AID ENGLAND

Inside History of Famous Conference Made Public in the Blue Book.

(Special By Scripps-McLae.) London, Nov. 4.—The blue book just published on the colonial conference shows most clearly and in the complete details that the colonies have refused to aid England in its great financial struggle straight and also demonstrates that England had endeavored to bring its colonies more closely into touch with the mother country and the trouble of running the finances by a creaking system of duties and reduction of royal treasury. Canada is shown to have done far more in accordance with the wishes of the mother country than had Australia or any of the other colonies. While Canada was willing to concede some points she would not go far enough to assure its success and the present plans will be dropped and new ones thought out.

YATES' CONDITION GROWS ALARMING

Temperature Passes 103 Degree Mark and Patient Becomes Delirious, With Short Lucid Periods.

Springfield, Ill., Nov. 4.—Gov. Yates' high temperature gave alarm twice, when it went above 103 degrees. The patient has been delirious with only short lucid periods, and has talked incoherently. The executive has many times expressed to his wife a dread of typhoid fever, and up to this time he has not been permitted to know the real cause of his illness. Mrs. Yates has persistently told her husband that he is suffering from intermittent fever, and on these occasions he has expressed great thankfulness that he is not afflicted with typhoid.

They are dying off like rabbits and there seems to be nothing to check the death rate. The march of civilization has increased the death rate from Nome north. Two years ago the devastation began, and it has continued ever since. When the natives began to wear civilized man's clothing and drink white man's whisky, then began their decline. Pneumonia, rheumatism, grip and every conceivable malady made their appearance among them and spread all along the coast with appalling results."

They put up a strong fight, firing several volleys, but none of the deputies was hit. Two deputies in disguise had secured the confidence of the outlaws, and, being with them at the time, gave the signal to their fellow officers that started the fight. Casey and Sims were planning the release of George Moran, another of their number, now on trial at Lawton for murder.

She seems to have the right idea.

PURSUES WOMEN TO THEIR DEATH

SUSPECT IS SCION OF WEALTH

Holds High Social Position and His Home Contains Every Comfort That Money Can Procure. Yet Startling Crimes Are Charged to Him.

Boston, Mass., Nov. 4.—In his luxurious home, surrounded by every comfort money can purchase, with the highest social position, and every apparent incentive to a long and happy life, a prominent young Bostonian sits face to face with the knowledge that the police are preparing to arrest him for murder.

Every avenue of escape but one is cut off and the man's friends hope he will take the only means left to save his family the disgrace of his arrest and the subsequent exposure.

This city and its wealthy suburbs have been stirred to their depths by the outrages of the last few weeks, and the state, local and suburban police have been working night and day to discover the perpetrator of the crimes.

Attack on Women.

Of the crimes—mysterious attacks on women waylaid in the suburbs—two have resulted fatally. Miss Clara Morton, the latest Massachusetts victim of the assailant, died last night in the Massachusetts General hospital. During the twenty-four hours that she was in the institution she was conscious at times, but was unable to give a description of her assailant.

The suspicions of the police have centered on one man, and gradually the net of evidence has been drawn closer, until they are now practically agreed as to the necessity of his arrest.

The suspect is a comparatively young man, a member of a family moving in the highest social circles, a graduate of Harvard, connected with a prominent Boston commercial concern, and with immense wealth available for his defense.

In Mentally Unsound.

Of late years this man has shown mental peculiarities tending to melancholia, and at various periods he has been an inmate of the McLean hospital, where Miss Morton was assaulted, and he has been in other similar institutions. He has been regarded as harmless, but at times has shown himself unbalanced in regard to women. About a year ago he was released from the Waverly institution.

For some months these murderous attacks upon unprotected young women have been frequent in the suburbs of Boston, and the death of Miss Morton, following so closely upon the fatal attack on Agnes McPhee, who was attacked on Chester street, Somerville, on Oct. 3, created consternation.

Uses Heavy Weapons.

Women have remained at home after dark and special officers have patrolled the street in vain waiting for the perpetrator of these deeds of violence.

The details of the cases were almost invariably alike. Young women were the victims, and the assailant stole upon them and struck them down with some heavy weapon. Robbery evidently was not the object, for once the victim lay apparently dead the man fled into the darkness. Several young women owe their lives to the assailant being interrupted at his work, and only by a hair's breadth has he on several occasions escaped capture by pursuers who came upon him in the act of battering his victims.

WHITE MAN IS TURNING BLACK

Strange Malady Afflicts Sewer Worker at New York Hospital.

New York, Nov. 4.—Patrick McGrath, an employee of the sewer department, is believed to be dying at Bellevue hospital from a mysterious disease, the cause of which leading physicians have been unable to determine. McGrath is turning black. Cases of a similar nature have been frequent in medical history, but the victim's color generally turned very slowly. McGrath's case is entirely new. The discoloration began in his lower extremities soon after he was taken to the hospital and has risen to his abdomen. The doctors have been unable to afford him any relief. He has grown steadily weaker.

TURKEY WANTS TO BE PUSHED

Porte Awaits Coercion Before Settling Claims of United States.

Constantinople, Nov. 4.—Turkey does not manifest the slightest intention of fulfilling its assurances of "immediate settlement" of various American claims which it made to United States Minister Leishman when he left Constantinople early in September. It is expected here that President Roosevelt will shortly institute coercive measures, as the porte will not move until convinced that the United States is in earnest.

Dishonorable Discharges.

Newport News, Va., Nov. 4.—The commander of the United States training ship Monongahela has issued an order giving twenty of the men dishonorable discharges for "disgraceful conduct."

Votes Come High.

According to the best information obtainable each of the 1,651 votes cast for William S. Devery in his recent contest in New York cost him about \$23.50, which is high-water mark in the price for votes.

MODIFIED CATTLE EXCLUSION

Illinois Order Is Amended to Comply With Federal Rules.

Springfield, Ill., Nov. 4.—A proclamation was issued by the Governor, in accordance with an order issued from the Department of Agriculture at Washington, amending the order providing for the exclusion from the state of Illinois of cattle from the states of Virginia, North Carolina, Tennessee, Missouri, Kansas and Texas and the territories of New Mexico and Arizona from Feb. 1 to Nov. 15 of each year, so as to provide for the admission of such cattle after Nov. 1.

CHURCH FIGHT GROWS FIERCE

Sheriff Is Called on To Quiet Joliet Congregation.

Joliet, Ill., Nov. 4.—Bishop Muldoon of Chicago will be asked to decide a quarrel among members of the Slavonic church in this city. Part of the congregation is opposed to Rev. Mr. Kollar and his supporters and bloodshed is threatened. It was necessary to call in the sheriff to prevent a riot in the church. One faction had secured possession and refused to let the other side enter. The officer compelled a truce until the trouble can be placed before Bishop Muldoon.

MILK SICKNESS KILLS CATTLE

Peculiar Malady Afflicts Herds at English, Ind.

English, Ind., Nov. 4.—An epidemic of milk sickness has broken out more violently than for fifty years. Fona Temple, a large dairy farmer, has lost eight head of cattle and twenty more are dying, while W. F. Richards has lost six and fifteen are dying. No cure is known and no cause can be given for the disease.

Punish a Policeman.

Reading, Pa., Nov. 4.—John Kintzer, a policeman, was sentenced to eighteen months in the penitentiary for shooting and killing George Tipton, a nonunion coal strike breaker, who resisted arrest. Tipton and 1,000 other negroes raided an apple orchard and the policeman tried to drive them away.

Pottery Combine.

Washington, Nov. 4.—Walter Schumann, United States Consul at Mainz, Germany, reports to the state department that a German journal is authority for the statement that the German manufacturers of earthenware are contemplating an amalgamation to protect the sale of their wares.

Held for Craig's Death.

Pittsfield, Mass., Nov. 4.—Eugene Madden and James T. Kelley, respectively motorman and conductor of the electric car which on Sept. 3 collided with President Roosevelt's carriage, were held for the grand jury. Madden was released on \$5,000 bail and Kelley on \$2,500.

Shot by Tramps.

Bloomington, Ill., Nov. 4.—Walter Webb of Kewanee, Ill., with a companion, Willard Davy of Plattville, Wis., was en route to St. Louis. Tramps rebuffed them of their money and other valuables and because of the slow response of Webb to their demands, he was shot.

Sympathy

Is a good thing for the young husband to give the young wife, but sympathy will not abate one jot of her nervousness or lift her to that plane of sound health where alone the wife and mother can find happiness.

Dr. Pierce's Favorite Prescription

meets every womanly want and need. It tranquilizes the nerves, restores the appetite and induces refreshing sleep. Its use previous to maternity makes the baby's advent practically painless and gives the mother abundant nutrition for her child. "Favorite Prescription" is a woman's medicine and has no equal as a cure for womanly diseases. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

Accept no substitute for "Favorite Prescription." No other medicine is "just as good" for weak and sick women.

It affords me great pleasure to be able to say a few words in regard to the merits of Dr. Pierce's Favorite Prescription and "Golden Medical Discovery." I writes Mrs. Flora Ann Dallas, Jackson Co., Mo. "I was tempted to try these medicines after seeing the effect upon my mother. At an early age of married life I was greatly bothered with painful periods, also a troublesome drain which rendered me weak and unfit for work of any kind. I became so thin there was nothing left of me but skin and bone. My husband became alarmed and got me a bottle of 'Favorite Prescription.' After he saw the wonderful effects of it one day he got two more, and after I used those up there was no more pain, and I began to gain in flesh very rapidly."

First there was no visible change and she came to the conclusion that they were like all other remedies she had tried but finally the aching and the distress in the small of the back disappeared."

IF YOU WANT TO KNOW WHAT SMARTLY DRESSED MEN WILL WEAR THIS SEASON ASK TO SEE ZIEGLER SMART CLOTHES.

The Young Men of Today

ARE much more difficult to please than are their fathers. Perhaps it's because the young fellows that go to school or college or those who have just entered busing—we refer to youths of from 14 to 20 years of age—have more time to pay attention to their clothes, or a greater object in view than their elders. Be that as it may, the fact remains that

The Youths are Particular and we are particular to please the youths ! ! !

With this result in view, we have prepared a most carefully selected stock of Suits, Overcoats and Trousers, from which we can please the most "finicky" young fellow in town. The coats all have the athletic broad shoulder—they hang gracefully, giving plenty of room for the expansion of the "manly" chests of the wearers. The trousers are full at the thighs and small at the bottom. Among the Overcoats will be found some extremely swagger styles including

BLIND TUNER OF PIANOS LEAVES

W. F. HURSEY ACCEPTS A POSITION IN ROCKFORD.

HIS DEPARTURE IS REGRETTED

His Work Among the Blind Students at the State School Was Practical.

W. F. Hursely, who for the past four years served as an instructor at the State School for the Blind, left today for Rockford to accept a responsible position in the tuning department of the Rockford Piano factory. During his residence here Mr. Hursely took care of the major portion of the piano tuning business of the city and his patrons regret that they are to lose his services, even while they rejoice in his good fortune.

His Work Here. All friends of the blind also find reason for sincere regret in the fact that Mr. Hursely has severed his connection with the State School and is to leave the city. It was the object of the management in securing Mr. Hursely's services as instructor in piano tuning to create a field in this city and the surrounding country in which the demand for piano tuning could be met by blind tuners educated at the state school. Mr. Hursely went to work to attain this object and being a man of practical business sense and self reliance, and a piano tuner of unusual ability, as well as an able instructor, he was successful even beyond expectations.

Field Is Established. The field has been established and it was Mr. Hursely's plan to retain it for the blind students, widening it as occasion demanded. Under his direction his blind students gained a personal acquaintance with this field and with the people of Rock county. By Mr. Hursely's departure this field of labor is abandoned and the fact that he was not connected with the State School at the time of his departure leaves the field unsecured to serve as his successors. The large trade which Mr. Hursely had secured goes by default, and the permanent results hoped for from his wise administration at the head of the piano tuning department of the State School have been defeated.

Place Sought The Man. The position upon which Mr. Hursely has entered at Rockford came to him without solicitation on his part, the company recognizing his unusual ability and the desirability of securing his services. The offer made him was such an excellent one that he could not refuse it in justice to his own interests, although he was reluctant to leave his field of labor, and his many friends in this city.

TWILIGHT CLUB TO MEET ON TUESDAY

W. F. McCaughey Is Planning for an Interesting Program on "Life Insurance."

Arrangements are now going rapidly on for the Twilight Club meeting on Nov. 11 under the leadership of W. F. McCaughey, who will lead the discussion of "Life Insurance." Plans have been made for the presence of two gentlemen from out of the city who stand high in that business, who will also speak upon the subject. A feature which it is expected will be of especial interest, and add greatly to the profit of the meeting is a "question draw" which will be conducted. Questions, both verbal and written may be given to the leader and will be answered at the meeting.

ANOTHER CROWD AT "DEESTRICT SKULE"

Antics of Well-Known Janesville People Were Enjoyed at the Repeated Performance.

About three hundred attended the second night's presentation of the "Deestrick Skule" in the Y. M. C. A. auditorium. The program was somewhat cut from that given on the first evening, as the first proved rather too full measure, exceeding the two hours which had been advertised. The company of Janesville people who gave the play were cordially received, and the general opinion expressed was that the venture on the part of the Woman's Auxiliary had proved a decided success.

The story of her experiences reads like a novel and as told by her own lips is both interesting and thrilling.

If any recent changes are to be made in the new city directory, Mr. Bullock, the compiler, should be informed of them at once. The last forms are about to go to press, and if the changes are not made now it will be too late. Mr. Bullock said that he did not expect any one to tell him of a change in address that had been made since the lists were taken. It is so much easier to let the matter slide now, and ensure the compiler afterwards for his inaccuracy.

To Election Voters: In the election returns of the last state election, held in 1900, the Social Democratic vote in your town was returned only under the head of "scattering," some votes failed to show up at all. Election officers should be careful to report such votes under the proper head, Social Democratic party, at the election to be held next Tuesday; otherwise the respective voters will swear out affidavits, and the election officers will be prosecuted to the full extent of the law, which provides a severe penalty for such offenses.

The musical circles of the city are expressing a great deal of satisfaction over the fact that the Milwaukee Lyric Glee Club is to open the People's Lecture Course on Wednesday of next week. CAME TO POLLS IN FULL FORCE

PRACTICALLY THE SAME NUMBER VOTED AS IN 1900.

BUT FEW WOMEN CAST VOTES

About Fifteen Hundred Ballots Had Been Cast in the City at Two O'Clock This Afternoon.

At two o'clock this afternoon approximately fifteen hundred votes had been cast in this city. This varies but little from the vote at the presidential election in 1900. About fifty women had cast their ballots. In some wards the vote ran a little under that of the last election, but there were about as many where the vote ran over so that the average would be brought to nearly the same level.

Most of the voters, so the voting boards seemed to think were voting but few split ballots, although nothing more than surmises could be formed from the length of time that the men were in the booths.

The Wards. With the exception of the second precincts of the First and Third wards the women had hardly voted at all at two o'clock. In those wards the numbers were not high.

In the First ward, First precinct, 87 men and 2 women had voted at one o'clock. Two years ago the vote was lighter.

In the First ward, Second precinct, 190 men and 10 women had voted at one o'clock. Two years ago about the same number had voted at that hour.

Second Ward. In the Second ward, Second precinct 86 men and 4 women had voted at one o'clock. Two years ago 60 had voted at that hour.

In the Second ward, Second precinct, 112 men and 1 woman had voted at one o'clock. Two years ago 174 had voted at that hour.

Third Ward. In the Third ward, First precinct, 161 men and 5 women had voted at one o'clock. In 1900 164 had voted at that hour.

In the Third ward, Second precinct, 196 men and 16 women had voted at two o'clock. In 1900 255 had voted at that hour.

Fourth Ward. In the Fourth ward, First precinct, 141 men and 1 woman had voted at one o'clock, where rather more had voted two years ago.

In the Fourth ward, First precinct 205 men and 4 women had voted at two o'clock, as compared with 235 at three o'clock two years ago.

Fifth Ward. In the Fifth ward 180 men and no women had voted, at two o'clock, compared to 191 at the same hour in 1898.

Bad Taste in the Mouth

When you get up in the morning with a coated tongue and a bad taste in the mouth, you may or may not be seriously ill, but if there is any disease going, your system is just right to catch it. We know what you think—first you are half persuaded to try Vinol, and then you say to yourself: "That's the same story all the medicines tell; I've heard it before."

But Vinol is not like other medicines. If it were, we shouldn't be talking about it in any special way. If you will regulate your bowels with Vinol and take Vinol to improve your digestion and assimilation of food, these troubles, with the headache, "liver complaint," neuralgia, rheumatic pains, and nerve troubles will disappear as by magic. We pay back the money if it doesn't help you.

MAY FORMULATE PANAMA TREATY

NOW WAITS ON SECRETARY HAY

Return of the State Department Chief Will Mark the Resumption of Negotiations Between Colombia and the United States.

Washington, Nov. 4.—Senior Concha, the Colombian minister to the United States, has been directed by his government to renew negotiations of the canal treaty, without reference to the complaint against Admiral Casey. Thus the dangerous situation concerning the Panama canal, produced by the refusal of the minister to renew the negotiations, has been brought to a close. Senior Herran, the secretary of the Colombian legation, called at the state department and left a note from Senior Concha making inquiry as to when Secretary Hay would return to Washington.

Removes Obstacles.
When the secretary of state reaches Washington the negotiations will be renewed, and it is believed there will be no more hitches. From what is known of the character of Senior Concha's instructions, it is believed that the difficulties in the way of concluding a treaty will not be so great as has been supposed except as to the price asked by Colombia for her concession. The original price agreed upon was \$7,000,000 cash and no payment of rental for fourteen years. Colombia now wants \$10,000,000 cash.

Ignore Casey Incident.
Complaints against the course of Rear Admiral Casey on the isthmus, which formed the basis for Senior Concha's refusal to resume the canal treaty negotiations, have been taken up by the government at Bogota, it is understood, and Senior Concha has been directed to continue his exchanges with Mr. Hay without reference to them. It is believed that the Colombian government will ignore the charges against Admiral Casey, and has promised to take them up merely to placate Senior Concha.

It is learned that the story that Senior Concha had resigned had for its basis the fact that about a month ago he placed his resignation at the disposition of his government. The administration in Bogota declined to accept it and urged Senior Concha to remain in Washington until the completion of the canal treaty negotiation.

Concha Takes Offense.
The reasons given for Senior Concha's desire to leave Washington were that his family is in Colombia and he is in poor health. He did not again tender his resignation and will probably not do so until the treaty has been signed. The resignation was offered before Admiral Casey's course in maintaining traffic on the Panama railroad and his action in demanding to see the papers of the Bogota and inquiring what right that vessel had to fly the Colombian flag gave offense to Senior Concha.

HUMILIATES WEALTHY SCIONS

Penal Servitude for Men Who Sought to Deprave Morals of Youths.

London, Nov. 4.—Excitement over the reported flight of a peer to the continent was heightened by the announcement that a well-known London society man, Bernard Frazer, had been sentenced at the Norwich assizes to ten years' penal servitude. With him was sentenced Arthur Thorold, son of a clergyman, connected, as is Frazer with one of the oldest and proudest families in the United Kingdom. The prisoners were charged with carrying on a campaign to deprave the morals of youths all over the country.

Shullsburg, Wis., September 1, 1902.

Dear Madam: When I entered the Standard dress cutting school I wanted to learn to cut and fit so I could do my own sewing. After I was in school one week I liked the work so well that I decided that I would like to have a school of my own and I am glad that I can now say that I have a territory of my own. The most striking and valuable feature of this system is that the method is simple and easy to learn and that it insures a perfect fit for every individual figure. I can heartily recommend the Standard Square Inch Tailor System.

MYRTLE MARCH.

New Diggins, Wis., August 4, 1902.

Dear Mrs. Laird: Having completed a course of instruction in the Standard Garment Cutting Co. school I find it just as represented. The system is easily mastered. I heartily recommend your good work. It's worth double the amount of tuition. REV. MRS. J. R. LINDSEY.

Benton, Wis., September 1, 1902.

Dear Mrs. Laird: Words cannot half express how delighted I am with my new work. Two months here has resulted in 23 scholars as well as the sale of valuable territory. Indications are that business will be twice as good in the next two months. The work advertises itself. For any lady the work is clean, healthy, and most honorable. LEONA M. ROWE.

He Finally "Tumbled."

"They sat on the sofa—he and she—dreaming the hours away in a happy manner peculiar to lovers. Finally he whispered in her shell-like ear: 'You are like a peach.'"

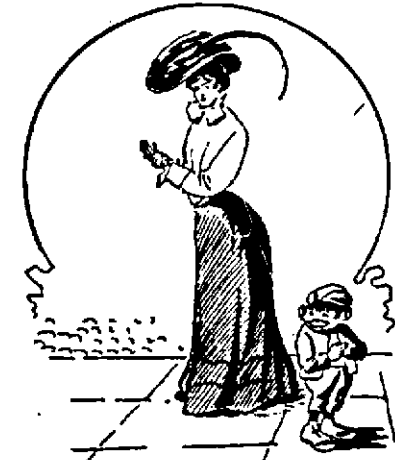

The maiden hung her head demurely for a few minutes, while a warm blush spread over her fair, blonde face.

"I'd rather be a pair," she answered tremulously.

A long silence ensued; then, like a beautiful dream, the situation unfolded itself to the young man and the banes are now up.—London Answers.

She—Do you regard marriage as a necessity or a luxury?

"By suggestion," replied the wife and mother.

"Suggestion?"
"Yes," I suggested that she look him up in Bradstreet's."—Chicago Tribune.

SEE DIFFERENT VEINS OF COAL

Varying Character of the Workings Shown to the Arbitrators—Operator Markle Conducts Them Through His Clubhouse for Employees.

Hazleton, Pa., Nov. 4.—The anthracite strike commission spent Monday in the Lehigh valley region, visiting one mine and several of the mining villages. Recorder Wright sent copies of President Mitchell's statements of the miners' case to all the coal companies involved in the district. At nearly every station a small crowd was gathered to get a glimpse of the members of the commission. A conference was held at Pond Creek between the company and miners' representatives, and for some time they could not agree as to which mine the arbitrators should visit. After some argument the matter was compromised and the Audenried colliery of the Lehigh and Wilkesbarre company was selected.

Visit Miner's Home.
The commission's first stop of the day was at Upper Lehigh. While in this place the arbitrators visited one of the homes of the miners, the first place they have been in since they have been touring the region. Drifton was the next place visited and there a crowd gathered about the commission as Supt. Smith of Cox's company, whose mines are located there, explained the trouble between the company and its men. All the miners employed at these mines are still on strike.

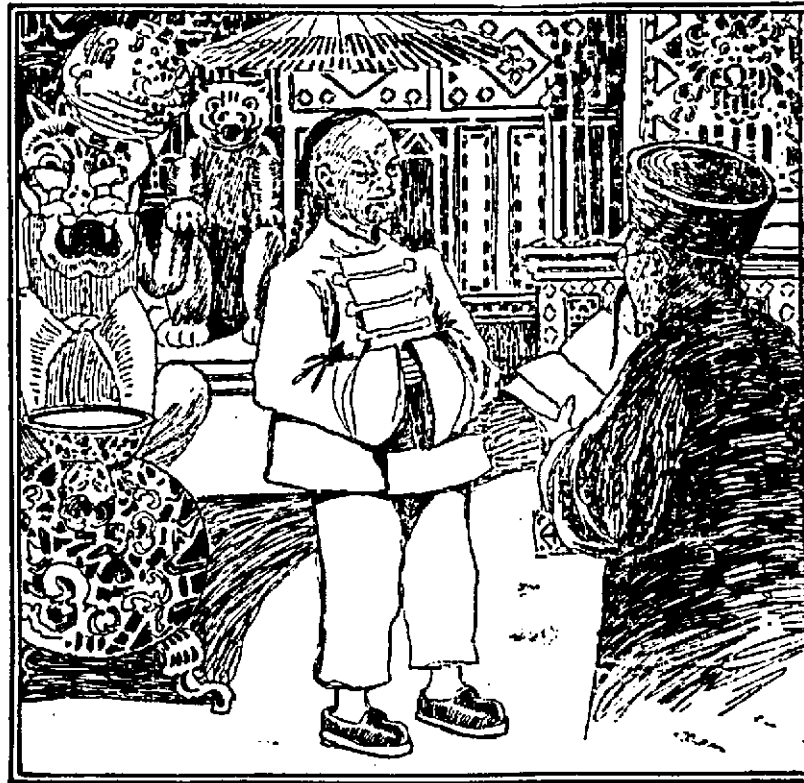

See Markle Clubhouse.
At Jeddo John Markle, the independent operator, joined the party and escorted the commissioners to the mining village of Oakdale, near Jeddo. Mr. Markle showed them the clubhouse which he maintains there for the benefit of the men. None of the men at the Markle colliery has returned to work for the same reason as those which are keeping the men out of the Cox mines.

The entire afternoon was spent in the Audenried mine. The commissioners were lowered into the workings, 350 feet below, through an 1,100 foot slope.

View Coal Veins.
One of the new "physical features" they saw was a vein of coal with a steep pitch which was difficult to mine.

While they were inspecting this a blast was fired in a nearby chamber and the lights carried by those who remained in the gangways below were extinguished by the rush of air.

After they came to the surface the arbitrators visited a "stripping," which is a place where the coal lies so near the surface that the earth can be taken off with a steam shovel exposing the coal, and thus making its mining an easy matter.
